

QUESTIONNAIRE DATA COLLECTION

draft version 6-4-11

The objective of the E-cosmos-project is to study, quantify and define procedures to promote socially and environmentally sustainable mobility of workers in the EU. With this questionnaire the consortium wants to collect all necessary data from all involved countries. If any questions concerning this questionnaire, you can contact Vincent Meerschaert (vme@traject.be, +32 9 242 32 80) for assistance.

1. General

Date:

Name and function of person who filled in questionnaire:

2. Context indicators

Country		Average income population	
Population		Unemployment rate	
Surface		% employment rate in service sector	
Population density		% estimated energy use transport	
Cost of car use		% emissions of Carbon Dioxide by transport	
Price of Petrol		Share of transport sector in local economy	
Car ownership			

European Commuters for Sustainable Mobility Strategies

This project has received funding from the European Union

3. Modal split home-work traffic

What is the overall modal split for home-work trips in your country?

Car (solo)	
Carpooling	
Public Transport	
Cycling	
Walking	
Other:	

Source / time of data:

Comments:.....

4. Mobility challenges

Which are the main topics in the field of mobility in your country? Indicate to which degree they are alive in public discussions, in trade unions debate and from an employers point of view. Scale from 1 (=no attention at all) to 5 (=very strong attention)

	public in general	trade unions	employers
congestion problems, traffic jams,...	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5
environmental issues, global warming,...	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5
dependency of oil,...	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5
road safety (accidents,...)	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5
other:	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5
other:	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5	1 - 2 - 3 - 4 - 5

5. Organisational aspects of mobility

5.1. political level

Describe shortly how mobility management policy is organized in your country. On which policy level (national, regional,...) are mobility issues decided? Topics to be mentioned are the legal framework, public transport,...

5.2. mobility management (MM) on company level

Is there an obligation for companies to

- a. develop a company mobility plan No – Yes

explain: (e.g. only applicable in certain regions)

- b. provide data concerning company's mobility No - Yes

explain:

- c. reimburse transport cost for home-work travel No - Yes

explain (eg if varying according to travel mode)

European Commuters for Sustainable Mobility Strategies

This project has received funding from the European Union

d. other obligations:

5.3. which MM topics are part of the dialogue, negotiations between employers – trade unions)

Describe also on which level (sectorial level, company level,...) negotiations are made.

European Commuters for Sustainable Mobility Strategies

This project has received funding from the European Union

6. Best practices

Give a short description of some best practices (at least 5) on work-related MM in your country

7. Barriers, drivers, ...

7.1. What are the main barriers for achieving a more sustainable work related mobility in your country?

7.2. What are the main drivers for achieving a more sustainable work related mobility?

7.3. What are the main opportunities at the moment?

8. Conclusions

- 8.1. which good experiences, policies,... from your country on work related mobility would you advice to introduce in other EU-countries?

- 8.2. give one or two suggestions for developing a more sustainable work related mobility policy on EU-level
